Olive Leaf Tea

Served ICED

Olive Leaf Tea has been traditionally used as a folk remedy for pathogens and bacterial infections for centuries. Olive leaves are rich in calcium, iron, vitamin E, and oleuropein, a polyphenolic anti-oxidant. Olive leaf is also an effective measure for the prevention of diabetes in its ability to regulate blood sugar and cholesterol levels. A.H.A.N. imports our Olive Leaf Tea from the city of Bursa, in the Izmir area of Turkey.

Available dry for purchase to take home.

Jamaica Tea

Served ICED

Jamaica tea is made from the red hibiscus flower and is one of Domo's most popular herb teas. Jamaica tea is rich in vitamin C and potassium, and said to be good for your heart and digestion. So this season's harvest is fresh, delicious and good for you too! This robust, citric tea is imported directly from Mexico.

Available dry for purchase to take home.

Fresh Mint Cha

Served HOT

A fresh mint leaf tea with a special blend of oolong cha. Mint teas have traditionally been an aid to digestion, and used to treat stomach aches and chest pains. In tropical areas, mint tea has since long ago been helpful to keep people cool and relaxed during the summer season. A high recommendation for any Domo customer looking for a bit of relief from the summer heat!

Black Carrot Tea

Served ICED

A.H.A.N.'s Black Carrot Tea has been specially imported from the Anatolia Region of Turkey for Domo's friends and patrons. Purple carrots are the main ingredient in this special blend of tea, making it a high source of Beta Carotene and Anthocyanin, an active anti-oxidant agent. This tea is also rich in Vitamin A which the body uses to prevent eye, heart, and skin disease, as well as prevent cancer.

\$2.00

Available dry for purchase to take home.
